### Custom Content - Shutterstock Studios

- **Full Production** - Efficient and scalable solution for on-brand content, including images, GIFs, IG stories, cinemagraphs, 360° videos, and drones. Everything 3D Partner, including AR, VR, and Metaverse.
- Full production includes brand curation of final assets from a larger pool of submissions, large format print quality, rights in perpetuity, and third-party transfer.

### Image & Offset Licenses

- **All Media** - Uses below plus unlimited web distribution, online video, streaming, multimedia advertising, TV/film production, print production, packaging, promo items, merchandise, and sensitive use.
- **Digital Use** - Uses below plus use of images freely on websites, on e-book covers, within apps, and in emails.
- **Comp** - Complimentary hi-res, unwatermarked images for mockups or layouts for testing purposes. Final assets both internal and external facing must be licensed before print or publishing.

### Footage Licenses

- **All Media** - Web distribution, live performance, TV, theatre, worldwide perpetuity, archival rights, and full indemnification.

### Music Licenses

- **All Media** - Web distribution, online advertising, social media, internal corporate use, external corporate events, point-of-sale, TV and radio broadcasts, software, apps, film, TV advertising, and sensitive use.
- **All Media (excl. TV Advertising)** - Web distribution, online advertising, social media, internal corporate use, external corporate events, point-of-sale, TV and radio broadcasts, software, apps, and sensitive use.
- **Web/Internal** - Corporate videos, online advertising, social media, and websites.

### Editorial Licenses

Editorial content is generally available for use only in non-commercial ways (news/magazines/documentaries etc.) and can't be used to promote a brand/product/service. However, we may explore the potential for clearing Editorial content for commercial uses.
In select cases, Shutterstock can offer Asset Assurance™, which provides additional indemnification alongside your commercial license, to use editorial images in specific campaigns. Asset Assurance™ is subject to Shutterstock's legal review and approval.

If you'd like to inquire about using an Editorial image for commercial purposes, please email Sarah or Louise with the following information:
- image ID number(s)
- brief description on how image will be used.

# World's Largest 3D Marketplace

## The leading force behind making 3D more accessible

- Turbosquid is the **largest 3D marketplace** worldwide

- **Global team of expert 3D artists**, contributors, and branded content creators

- Expertise in producing assets **across key market verticals & 3D content types**

- Produces highest quality, **standardized models that can play across any player**

- **Ensures dynamic integration into gaming, Metaverse, Web 3.0, NFTs**, and more

**360**³ᴰ

### Turbosquid
• **1 million+** ready to use, high-quality 3D models
• A**ll major formats** for **all major platforms**

### PixelSquid
• **3D objects rendered into imagery**
• Speed & flexibility to create great images at any angle

### Kraken
• **Digital Asset Management built to handle the complexity of 3D and** bring order to your 3D ecosystem.

### Gemini
• **Leading standardization of building 3D models** across formats, informed by data

### Virtual Production Studio
**Building custom, high quality 3D**

### Metaverse
The Metaverse isn't coming, it's already here. But if we want to get consumers to come inside, we need to make sure we have objects for them to look at and interact with. We know how to build for the Metaverse. We can create: furniture for virtual conference rooms and offices (desks, chairs, lamps), plants to fill worlds (trees, flowers, bushes), and so much more.
